

System Usability Scale (SUS)

Landing Page Guest

The image consists of two vertically stacked screenshots of a web application interface. Both screenshots show a light yellow background with a sidebar on the left.

Top Screenshot: This is the initial landing page for guests. It features a large central text area with the following message:
Bismillah, mari kita mulai! Apa yang ingin Anda ketahui hari ini?

Below this text is a search bar with the placeholder "Message Sapa Tazkia". To the right of the search bar is a blue circular button with a white upward arrow icon. Below the search bar, a small note reads: "AI can make mistakes. Cross-check academic information with official sources."

At the bottom of the sidebar, there is a dark blue button labeled "Login Mahasiswa". In the top right corner of the main area, there are two buttons: "SIGN IN" and "TRY AS GUEST".

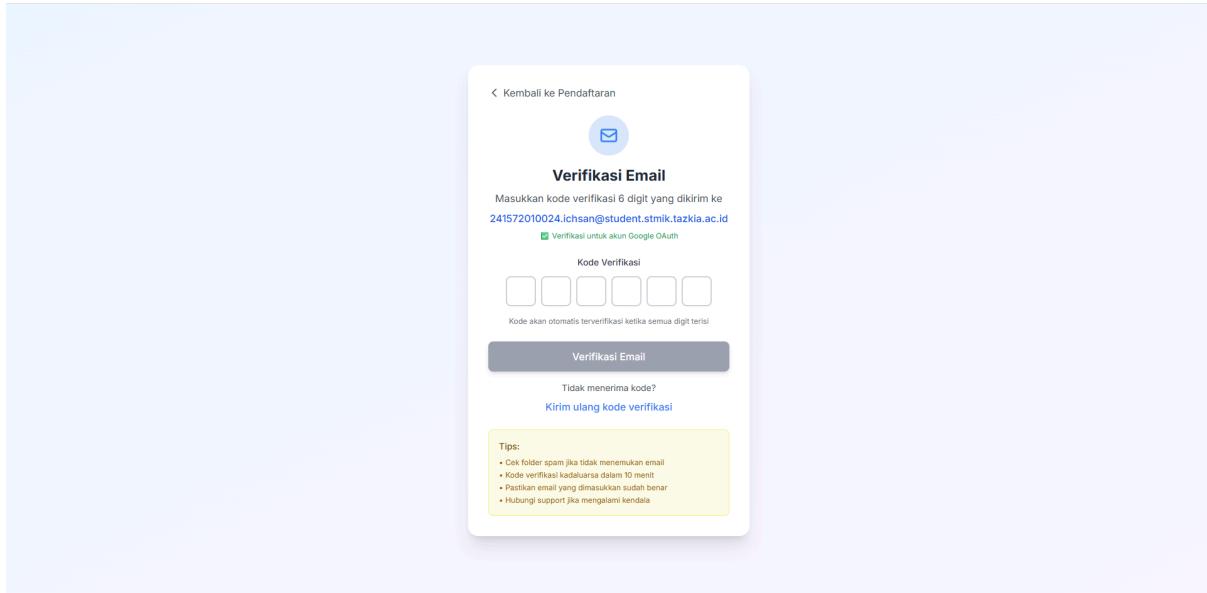

Bottom Screenshot: This screenshot shows the same landing page after a user has interacted with it. The central text area now displays:
Sapa Tazkia AI
Tanyakan apa saja tentang Tazkia.

A small orange circular icon with a white speech bubble symbol is positioned above the text. In the top right corner of the main area, there is a green progress bar labeled "Mode Tamu" with the value "7,000 / 7,000". Below the progress bar, it says "Sisa Token" and "Info".

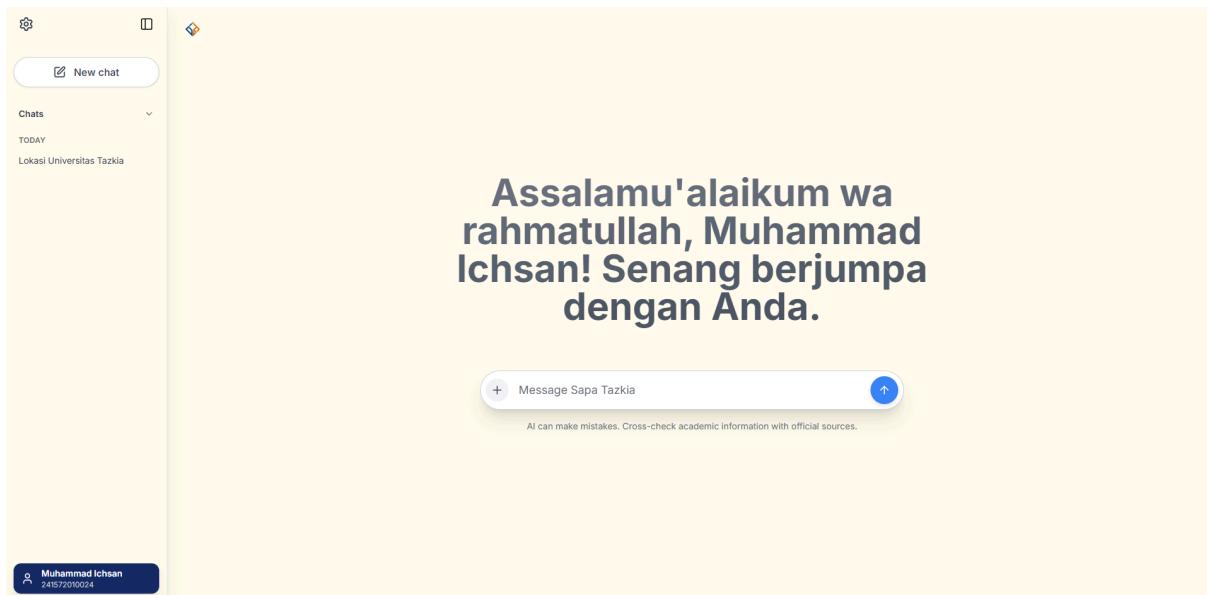

Both screenshots also feature a "New chat" button in the top left of the sidebar and a "Chats" section below it, which includes a note: "Login untuk melihat riwayat chat Anda." At the bottom of the sidebar, there is another "Login Mahasiswa" button.
